

FUEL IS THE HEART OF YOUR OPERATION – Western Global is your partner

- Leading provider of portable tanks and dispensing equipment
- Fuels, lubricants, and DEF (Diesel Exhaust Fluid)
- Superior performance, compliance and product reliability
- 50 years of product innovation, experience and industry knowledge
- In-house engineering, design and compliance teams

FUEL TANKS FOR GOVERNMENT APPLICATIONS:

TRANSCUBE

With its fully transportable design and ability to fuel up to three pieces of equipment simultaneously, a TransCube will save you time and can double or triple the run times of your equipment.

DESIGNED FOR MOBILITY

Tanks can be safely lifted by crane or forklift into logistically challenging sites.

SECURITY & PEACE OF MIND

Lockable equipment cabinet protects fuel & equipment from theft & weather damage.

FASTER REFUELING

Transportable design (even when full) saves you time onsite & eliminates wait.

TRANSTANK

Offering effortless connectivity and a reduced storage footprint, a TransTank is designed to exceed expectations for fuel farms, temporary power plants and complete fueling stations.

CAPABILITY STATEMENT

Past Performance

Location: **Northern Mariana Islands**
Date: **10/27/2018**
Contract Budget: **335,362**

Western Built and assembled (30) 787 Gallon Trans-Cube tanks on the weekend and had them ready for shipment in less than 24 hours per requirements of FEMA.

FEMA

Location: **Jamestown Kentucky**
Date: **3/8/2019**
Contract Budget: **6,600**

The U.S. Army Corps of Engineers needed a 1000 Gallon Fuel Cell with filtering and pumping to fuel operations at a Powerplant in Jamestown Kentucky. Western Global was able to provide a safe turnkey solution in less than 48 hours.

Location: **McGuire Air Force Base**
Date: **5/10/2019**
Contract Budget: **10,000**

The United States Air Force in McGuire New Jersey needed a 260 Gallon remote Mobile Refueling Trailer with onboard pumps, filtering, metering, remote power with a solar panel to keep the battery pack charged.

Location: **ELGIN Air Force Base**
Date: **10/01/2019**
Contract Budget: **160,000**

The United States Air Force in Florida needed (3) 14,500 Gallon Fuel Tanks for operations on the Elgin Air Base. The tanks were delivered as a turnkey unit where minimal site works was needed.

Western Global Differentiators

How to Buy WG Products

- ✓ Meets USA/European transport and stationary fuel storage regs
- ✓ Storage for Diesel, DEF, JP8, Gasoline and Aviation Fuels
- ✓ Finished inventory and optional accessories ship quickly
- ✓ Factory and global on-site training for professional operation
- ✓ Worldwide installation services and spares support
- ✓ TAA Compliant - Manufactured in USA and Europe.
- ✓ Transport loaded with fuel 1,242 US Gal, 4,700 Ltr (TransCube)
- ✓ Supplies fuel to generators and vehicle refueling at same time
- ✓ Integrated secondary containment eliminates need for berms
- ✓ Rapid site environmental approval and same day installation

- ✦ Factory direct government pricing from USA/UK
- ✦ GSA#: 47QSWA19D00AP, Native Instinct, Llc, 8(a) SDVOSB
